Dear Colleague,

You are cordially invited to participate in the International Student Conference in Applied Mathematics and Informatics, ISCAMI'11, to be organized by the Institute for Research and Applications of Fuzzy Modeling (IRAFM), University of Ostrava. The conference is to be held in a small village Malenovice, near Ostrava on May 6-8, 2011, <http://www.kam.cz/kc/>.

ISCAM was a traditional student conference in applied mathematics. ISCAMI'11 takes over the tradition of ISCAM and extends it with informatics and various applications. The main purpose of ISCAMI'11 is to bring together young researchers and students and to give them an opportunity to present their achievements and ideas in the area of applied mathematics, informatics and various applications.

### **Paper Submission**

Authors are invited to prepare abstracts of no more than one page including results and references.

### **Venue**

ISCAMI'11 will be held in a small village Malenovice, near Ostrava, one of the culture and industrial centers of the Czech Republic.

Malenovice is a beautiful place lying under the highest peak (Lysá hora, 1323 m.n.m) of the Beskydy mountain with a picturesque view on a valley.

Between the plenty of things to see and to do in the surrounding area, Malenovice is an ideal location for a few extra days of a pre- or post-conference recreation.
