Ing. Marek Radvanský, PhD.,

Mgr. Miroslav Štefánik, PhD.,

Ing. Ivan Lichner,

on

Forecasting Skills Mismatch in Macedonia

Methodology with related obstacles and results of a macroeconomic forecasting model designed for Republic of Macedonia will be presented. Results of the HERMIN based macroeconomic model – HERMAC will be complemented with additional skill needs analysis utilising the outcomes of the model.

Please, confirm your possible participation by June 18th, 2013 to Hajnalka Marsovska at hajnalka.marsovska@savba.sk.

We are very much looking forward to see you all at the seminar.

Kind regards

Marek Radvanský and Menbere Workie Tiruneh

The IER Seminar in Empirical Economics

The Institute of Economic Research of the Slovak Academy of Sciences (IER SAS) is intending to launch a regular monthly seminar in empirical economics to be held at the beginning of each month starting from June 2010. Despite the fact that IER is the largest research institute in Slovakia in the field of Economics, regular seminars with emphasis on methodological issues have been missing for years. Therefore, we believe this is time to reconfigure the status quo and follow the global trend.

Objective

The seminar should accomplish a number of significant issues. First, it will serve as a bridge between IER and other Slovak and international research institutions in terms of creating networks. Second, it serves as a forum to disseminate both theoretical models and empirical strategies so that IER employees can learn from a wide-range of issues and personalities.

Topics

All the papers to be presented should be economic modeling, econometrics or other forms of empirical research and should be supplemented with policy implications. A wide range of topics can be presented, which should include the following:

- Labor market,
- Economic development
- Economic growth
- International trade
- Monetary Economics
- Public Finance / Economics
- International Finance
- Globalization
- Energy and Environment
- Operations research
- Developing Countries
- Microeconomic issues
- Optimization Methods
- Regional economics

Language

The language of the seminar will be **English**. This should help to increase IER employees to improve their language command and skills of presentation in the most dominant research and business language in the world, i.e. English.

Organizational issues

The seminar will be co-chaired by Marek Radvanský and Menbere Workie.

Potential speakers should send their topics and abstracts to the chairs at least three weeks earlier than the date of the seminar and their PPT presentations at least two days prior to the date of the presentation. The abstracts will be uploaded on the IER website and disseminated to a wider public via e-mail. With the permission of the author, selected and modified papers from the presentations maybe recommended for publication in the Journal of Economics of IER. However, this should be more of an exception than a rule.
