

Business Process Engineer

PwC Slovakia is looking for a Business Process Engineer to join our Advisory, Service Delivery Practice, serving top clients across Europe. Business Process Engineer would become a part of delivery teams on our advisory projects combining global experience with local skills and industry knowledge to deliver premium software solutions for the world's leading companies in the financial industry.

The successful candidate will be responsible for:

- Performing highly sophisticated customization of advanced software frameworks (BPM platforms – Pega, Outsystems and other "low code" solutions)
- Analyzing business requirements to come up with the best software solutions
- Interacting with the customers, always demonstrate professionalism, commitment and enthusiasm to deliver the best results

Requirements

- IT/fundamental science/engineering university degree or a final year student
- Strong analytical mindset and sharp logical thinking
- Ability to pick up new concepts and technologies rapidly
- Creative approach to problem solving
- Self-driven, highly result-oriented personality
- Understanding the concepts of object-oriented programming
- Upper-intermediate English
- Good communication skills

*Candidates possessing excellent German would be considered for a wider range of opportunities

Benefits

- Support for relocation to Slovakia
- Opportunity to develop your career in a dynamic and rapidly growing team of international experts
- Acquire new skills and technology expertise
- Merit-based career growth
- Travel to work on international assignments across Europe
- Enjoy a friendly and enthusiastic environment at work
